

## DIEBOLD ACTIVCASH HIGH-CAPACITY CASH DISPENSER

# ENSURE SMOOTH OPERATION AND RELIABLE ACCESS TO CASH.

Now more than ever, consumers rely on ATMs for day-to-day necessities. Whether it's a trip to the grocery store, a movie with friends or an outing with the kids, chances are they will be looking for the nearest cash machine. For many, these terminals have become their primary interaction with their financial institution. As usage continues to grow, financial institutions must find ways to meet the escalating consumer demand without driving up costs. With reduced maintenance costs and positive consumer experience, Diebold ActivCash delivers.

### DISCOVER INNOVATIVE COST-SAVING TECHNOLOGY.

ActivCash is a high-capacity cash dispenser that is designed to enable a consistent experience and reliable access to cash. All while helping the financial institution to improve efficiency and reduce costs. Its cash-over-keyboard design minimizes the risk of exposure, while serial-number capture capability future proofs the design for emerging requirements.

### FEATURES INTELLIGENT VERTICAL CASSETTES AND THE HIGHEST NOTE CAPACITY IN THE INDUSTRY

- Fewer cash-in-transit (CIT) trips
- Reduced downtime
- Improved ease of use
- Superior accuracy
- Proven security benefits

We've got a solve for that.™

# TODAY'S CONSUMER EXPECTS RELIABLE, CONSISTENT ACCESS TO CASH. ACTIVCASH DELIVERS.

## **ENHANCE OPERATIONAL EFFICIENCY.**

ActivCash features intelligent cassettes that allow secure electronic denomination changes, while an NFC interface gathers data regarding cash levels and who accessed cassettes most recently. Cassettes include 4 media cassettes and retract/divert bins. Additionally, the ability to dispense stacks of 75 notes and transport at a rate of eight notes per second ensures quick, smooth operation.

## **IMPROVE ACCESSIBILITY AND SERVICEABILITY.**

Innovative vertical-cassettes give CIT technicians greater visibility of their environment and eliminate the need to kneel during service. ActivCash enhances ergonomics and enables one-handed

operation and easy docking. And, all primary repairs can be completed in less than 10 minutes via a swappable modular design.

## **MINIMIZE CASH-HANDLING COSTS.**

With its four-cassette capacity, ActivCash boasts an industry-high capacity of up to 15,000 notes. Larger capacity translates to fewer CIT visits and reduces the costs associated with replenishment.

## **ACHIEVE UNPARALLELED ACCURACY.**

ActivCash boasts a reliable architecture that includes advanced picking technology and shuttle delivery system for banknote stack control and reduced over/under instances. An optional serial-number capture system will allow for superior counterfeit detection.

## **SECURITY**

- A cash-over-keyboard design further increases security by eliminating open-chest exposure.
- Access to safe/cassettes is blocked by locked shuttle.
- Secure cassettes available
  - Key lock
  - Locked feedwheel
  - Wire Seal
  - Access tracking
- Security cover available for upper tracks
- Dual authentication secures communication between the device and processor
- Encrypted communication between sub components (cassettes/lower unit/shuttle)
