

## DIEBOLD ACTIVDISPENSE ROBUST CASH DISPENSER

# EXPERIENCE REVOLUTIONARY RELIABILITY AND ROBUSTNESS.

Diebold has always been a leader in ATM manufacturing. Diebold ActivDispense, our latest dispenser, is the culmination of years of innovative engineering, as well as lessons we've learned from operating for decades in a vast global marketplace. We've taken our best practices and put them into the most robust, reliable, adaptable and affordable dispenser we've ever produced.

### IMPROVE OVERALL PERFORMANCE.

ActivDispense combines friction-pick technology with electromechanical media movement to ensure accuracy at all stages of the dispensing process. The new cassettes - which can be retrofitted into Opteva® dispenser modules - are designed to resist bowing, bending and puncturing. With a reinforced tambour door, enhanced rails and plates, improved picker-wheel engagement and button protection, it can withstand the most rigorous handling. What's more, friction, drag and binding have been reduced within the body, while the locking system has been enhanced - making our cassettes the most secure and reliable in the industry.

### BY ENGINEERING TOUGHER PARTS AND MORE SOPHISTICATED TECHNOLOGY, DIEBOLD HAS REDUCED THE FREQUENCY OF:

- Over/under instances (OUIs)
- Employee or servicer intervention
- Machine downtime

We've got a solve for that.™

# ACTIVDISPENSE HAS BEEN DESIGNED TO BE ROBUST, ADAPTABLE AND, ABOVE ALL, SECURE.

## **BUILD SECURITY WHILE CUTTING COSTLY INTERRUPTIONS.**

Reliable, robust and reasonably priced, ActivDispense fills even the toughest requirements and improves durability in the field.

**Flexible** - The ActivDispense module comes with four cassettes to suit operational needs.

**Rugged yet refined** - ActivDispense is sensitive enough to minimize OUIs; tough enough to take heavy use in high-traffic areas.

**Fits in anywhere** - Cassettes can be retrofitted to current or past Opteva dispenser modules.

**High capacity** - Each ActivDispense cassette holds up to 2,900 bills, making it ideal for high-traffic businesses.

**Counterfeit detection** - ActivDispense features serial number capture for compliance with emerging requirements.

## **ELIMINATE WORRY WITH AN ECONOMICAL, EFFICIENT AND SECURE SOLUTION.**

Decades of research went into making ActivDispense, the most reliable, adaptable and cost-effective dispenser ever produced by Diebold, a pioneer of the ATM industry. ActivDispense reduces errors, downtime and service calls while ensuring security of data and log files at an affordable price.
