

A Smarter Way to Securely Manage Cash

Introducing Smart Deposit Safe: Where Brains Meet Brawn.

Retail Profitability is Under Assault.

From insider fraud to armed robbery, financial pressure on retailers comes from many directions.

 <p>More than 7 in 10 people use cash (which must be managed) for in-store purchases in the U.S.¹</p>	 <p>U.S. retail businesses lose about \$40 billion annually because of cash theft alone.²</p>	 <p>Dishonest employees cost retailers an average of \$1,922.80 per act.³</p>
 <p>Armed robberies cost retailers an average of \$5,309.77 per incident.³</p>	 <p>The average time spent on till reconciliation during shift changes is nearly 15 minutes.⁴</p>	 <p>Only 13% of retailers have adopted smart-safe technology, which reduces these costs.⁵</p>

As loss prevention budgets stay flat or decline, **RETAILERS NEED MORE IN-STORE TOOLS TO COMBAT REVENUE LOSS.**

They need to reduce hours spent counting, recording and otherwise managing cash. As a result, many are turning to advanced, intuitive security solutions to improve.

Smart Deposit Safe Can Help.

The Diebold Nixdorf Smart Deposit Safe provides convenience and peace of mind to retail customers.

 <p>ELEVATED SECURITY</p> <p>Reduce internal fraud and errors while deterring theft and counterfeiting.</p>	 <p>ADDED EFFICIENCY</p> <p>Expedite cash management and gain quicker account credits.</p>	 <p>REDUCED COST</p> <p>Decrease personnel and reconciliation costs through automation.</p>
