

# DN Series® 200V

## Lobby Cash Recycler with Check or Coin

With the most functionality in the smallest footprint, the DN Series® 200V grows with your business, meeting today's needs and tomorrow's vision. The DN Series® 200V offers industry-leading scalability, paired with flexible components that enable you to digitize more of your consumers' experiences and reduce friction at every step in their journey.

Powered by the world's most innovative, reliable 4<sup>th</sup> generation recycling module (RM4V), the DN Series® 200V can start as a high-capacity cash-in/cash-out system, and seamlessly switch to a recycler while retaining the same footprint. It's never been faster or more simple to adapt your self-service fleet to offer new features and services.

### More Personalized

Engaging, consistent, research based design coupled with powerful Vynamic® software that enable personal connections with consumers at the intersection of physical and digital channels.

### More Integrated

A common platform supported by leading software and services ensures more seamless integration into your organization's channel ecosystem.

### More Available

DN AllConnect<sup>SM</sup> Data Engine, an intelligent data-driven service architecture, maximizes the availability of the globally proven 4<sup>th</sup> generation recycling module.

### More Efficient

New functionality offers new opportunities to migrate transactions and engage consumers through the self-service channel.

### More Future-Ready

Our scalable, modular platform offers the flexibility to meet consumers' demands today, and in the future.

### More Secure

Layered security features protect against traditional and emerging physical, data and cyber threats.

### More Sustainable

Built for a greener future: DN Series® minimizes power use, reduces service and CiT trips, and optimizes resources—supporting your sustainability goals at every step.
