\* We worked with our internal and external partners to collect information on the disposal and treatment of non-hazardous waste generated in Diebold Nixdorf's facilities. The total non-hazardous waste activity across Diebold Nixdorf will be included in future reporting.

1 Our mixed metals category includes brass, bronze, copper, iron, zinc and more.

2 Universal waste includes batteries, pesticides, mercury-containing equipment, light bulbs and aerosol cans.

3 Our miscellaneous category includes all waste materials that did not quite fit in the other categories described above. For example, concrete shells, glass doors and foam pallets.
