

DN Series® EASY Pro

**Modular Self-Service Checkout. Built to Adapt.
Ready to Perform.**

Retail is changing faster than most retailers can react. Staying ahead of ever-evolving consumer expectations is a key challenge.

The DN Series® EASY Pro delivers efficient, reliable self-checkout in a compact, all-in-one design. Configure it to your needs today and scale it for tomorrow. With flexible configuration options from cash modules to screen sizes and peripherals, EASY Pro fits seamlessly into your store environment. Built on a unified platform, it evolves with your operations, supporting on-site scalability and straightforward upgrades.

**More
Modular**

Leveraging one platform with modular components ensures easy adaptation to changing demands and forms the foundation of the DN Series® EASY Family. The DN Series® EASY Pro is a compact, all-in-one system that combines industrial-grade reliability with state-of-the-art product design. With high configurability and versatility, it meets today's requirements while offering the flexibility to scale for the future.

**More
Available**

Self-service is mission-critical for retailers striving to meet consumer expectations. Powered by DN AllConnect® Services for Retail, we ensure up to 99.8% availability, enabling true 24/7 operations. Harnessing real-time remote monitoring and remote incident resolution, our service experts significantly increase availability and drive maximum staff efficiency.

**More
Open**

Openness is the best way to minimize integration efforts and simplify ongoing management. DN Vynamic® Self-Service provides an open, flexible, and modular software platform that empowers your organization to tailor the right solution and optimize EASY Pro within your POS environment.

**More
Innovative**

The DN Series® EASY Pro brings intelligent self-service to a wider range of store environments by combining a configurable, all-in-one design with advanced AI capabilities. Integrated AI supports use cases such as shrink reduction, age verification and guided user interaction to enable smarter, faster and more secure transactions. Built on a modular platform with flexible configuration options, it empowers your organization to adapt the solution to your needs and optimize EASY Pro within your store environment.

Basic System Unit

- BEETLE CPU platform

Consumer Interaction

- 15", 15.6", 18.5" (all landscape) or 21.5" (portrait) LCD TFT projective-capacitive touch screen
- Integrated audio
- Magnetic swipe card reader
- NFC authentication module
- RGB indicator lighting for user guidance
- Proximity sensor
- Basket shelves
- Coupon box

Item Registration

- Bi-optical scanner
- Produce scale
- Handheld scanner

Printing Functionality

- Thermal receipt printer
- MF printer
- Coupon printer

Tender Options

- Two cash modules: Lite and Advanced
- Note recycling module
- Coin recycling module
- Compatible with industry-standard payment terminals including signature pad, contactless, and NFC
- Supports alternative payment methods such as coupons, vouchers, and deposit receipts

Security Features

- 1-, 2-, 4- or 6-bagging security scale options in various heights and designs
- Self-learning weight data base
- EAS functionality (AM and RF)

AI Features

- AI camera for age verification
- AI camera for shrink reduction
- AI camera for fresh-produce recognition
- Touchpoint Processing Unit mounted on the backside of the system and functioning as the AI server for EASY Pro

Accessibility Features

- Enhanced accessibility and ergonomics
- DN EASY Nav accessibility device support
- Intuitive self-service interaction design
- EAA and ADA-compliant

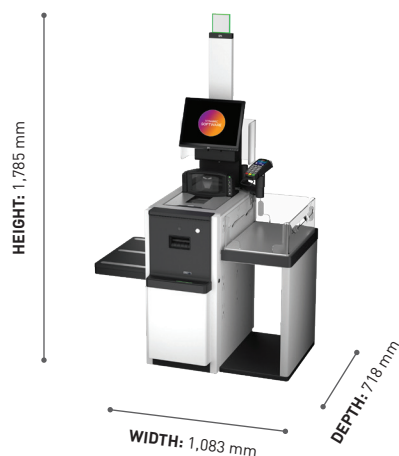

Attendant Intervention

- RGB LED lane light
- Supervisor login via magnetic key, magnetic swipe card reader, or NFC
- Stationary or mobile device

Customer-focused design

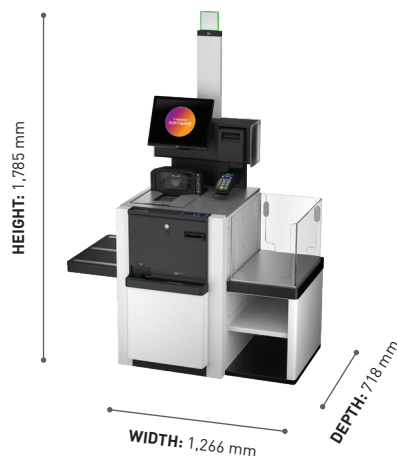

- All metal parts can be color-coded to match customer-specific schemes
- Security scale and basket shelf available in left or right configuration; easily changeable onsite

Dimensions

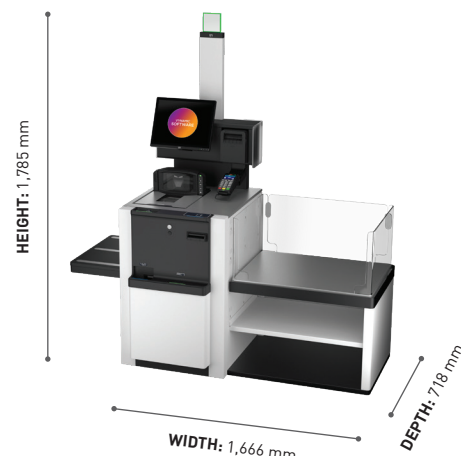

Card-only variant

Height: 1,785 mm
Width: 1,083 mm
Depth: 718 mm

2 bagging variant

Height: 1,785 mm
Width: 1,266 mm
Depth: 718 mm

4 bagging variant

Height: 1,785 mm
Width: 1,666 mm
Depth: 718 mm

The look, dimensions, capabilities or other characteristics of this terminal are subject to continual improvement and change.
