

DN Series® EASY MAX

Maximize the Self-Service Experience to Exceed Consumer Expectations

Retail is changing faster than most retailers can react. Staying ahead of ever-evolving consumer expectations is a key challenge.

The DN Series® EASY MAX was designed with small-store formats in mind. Fully flexible and customizable, it features best-in-class components within an optimized footprint. Future-focused and built to attract, EASY MAX includes a 27" or 32" interactive touchscreen that opens new opportunities to engage and connect with your customers. To meet the needs of today's consumers, the DN Series EASY MAX supports fully digital payment methods. If your store requires additional flexibility, a cash rack can be installed underneath, and a security scale can be mounted on the side.

More
Modular

Leveraging one platform with modular components ensures easy adaptation to changing demands and forms the foundation of the DN Series EASY Family. The DN Series EASY MAX is a compact, all-in-one system that combines industrial-grade reliability with state-of-the-art product design. With high configurability and versatility, it meets today's requirements while offering the flexibility to scale for the future.

More
Available

Self-service is mission-critical for retailers striving to meet consumer expectations. Powered by DN AllConnect ServicesSM for Retail, we ensure up to 99.8% availability, enabling true 24/7 operations. Harnessing real-time remote monitoring and remote incident resolution, our service experts significantly increase availability and drive maximum staff efficiency.

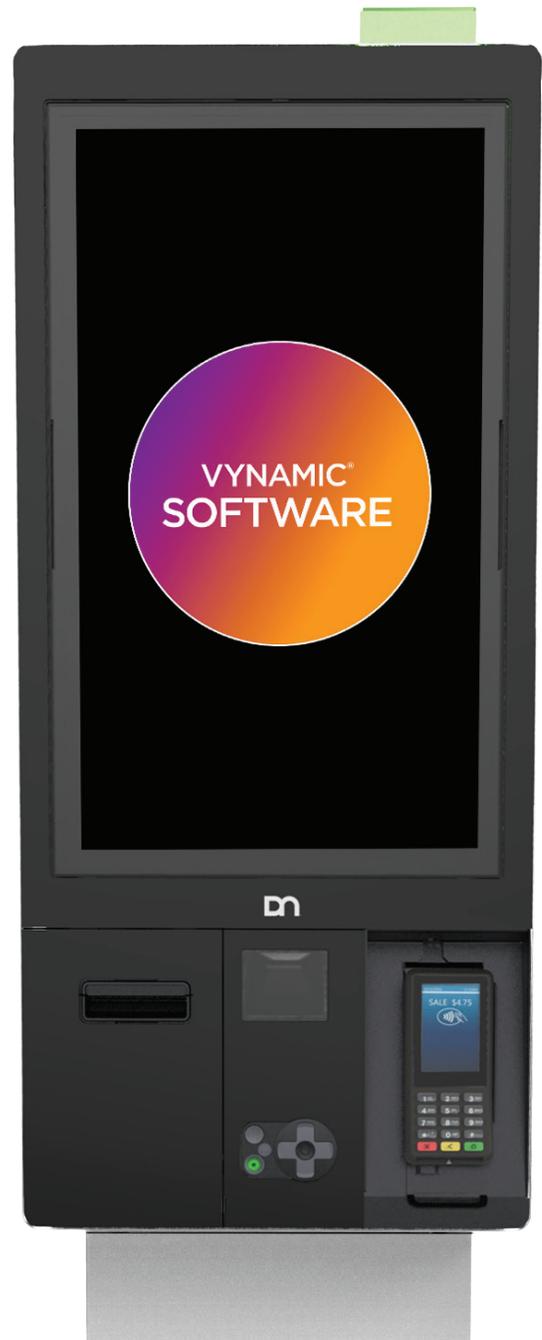

More
Open

Openness is the best way to minimize integration efforts and simplify ongoing management. DN Vynamic® Self-Service provides an open, flexible, and modular software platform that empowers your organization to tailor the right solution and optimize EASY MAX within your retail environment.

More
Innovative

The DN Series® EASY MAX takes self-service innovation further by combining a flexible, small-format design with advanced retail-grade functionality that elevates both efficiency and the shopper experience. With high-speed scanning, versatile payment options, and intuitive workflows that reduce friction, the EASY MAX delivers faster and smoother transactions. Its striking 27" or 32" touchscreen and modular configuration options ensure a future-ready solution that adapts to evolving store needs while maintaining a compact, modern footprint.

Building Block Concept

- Single-sided:
 - Wall mounted
 - Desk mounted
 - Pedestal mounted (various installation options)
 - Mounted on cash rack
- Double-sided:
 - Pedestal mounted (various installation options)

Basic System Unit

- BEETLE CPU platform

Consumer Interaction

- 27" or 32" LCD TFT
- Projective-capacitive touch screen (16:9, portrait)
- Integrated audio
- Magnetic swipe card reader
- NFC authentication module
- RGB indicator lighting for user guidance
- Proximity sensor
- Basket shelves (with pedestal or cash rack)
- Coupon box (with pedestal or cash rack)

Item Registration

- Vertical scanner
- External produce scale (with pedestal or cash rack)
- Handheld scanner

Printing Functionality

- Thermal receipt printers
- Coupon printer

Tender Options

- Two cash modules: Lite and Advanced
- Note recycling module
- Coin recycling module
- Compatible with industry-standard payment terminals including signature pad, contactless, and NFC
- Supports alternative payment methods such as coupons, vouchers, and deposit receipts

Security Features

- 1 bagging security scale (with pedestal or cash rack)
- 2-, 4- or 6-bagging security scale options in various heights and designs (with pedestal or cash rack)
- Self-learning weight database
- EAS functionality (AM and RF)

Attendant Intervention

- RGB LED lane light
- Supervisor login via magnetic key, magnetic swipe card reader, or NFC
- Stationary or mobile device

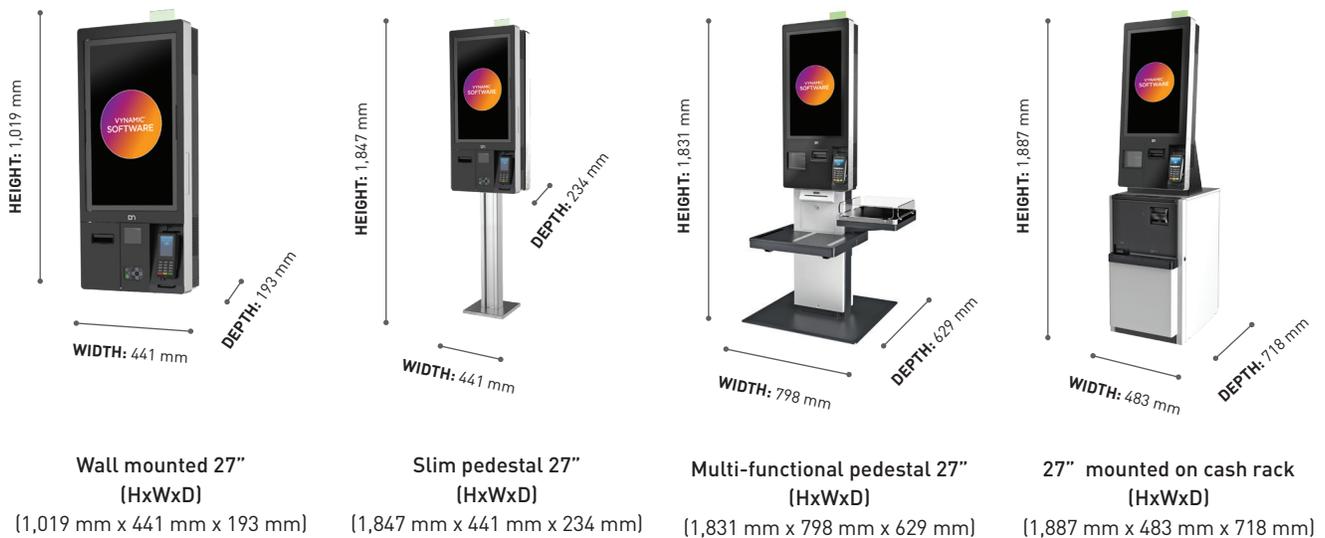

Ergonomic and Customer-focused Design

- ADA-compliant
- All metal parts can be color-coded to match customer-specific schemes
- Front panel available in black or white
- Security scale and basket shelf available in left or right configuration; easily changeable onsite

Installation Options

- Free-standing on stainless steel base
- Free-standing on multi-functional base
- Cable entry from floor or ceiling

Dimensions

The look, dimensions, capabilities or other characteristics of this terminal are subject to continual improvement and change.
