

About Anderson State Bank

Anderson State Bank, founded by A.B. Anderson in 1876, with its exceptional employees has been serving its customers and investing in its community for over 147 years. Located in Oneida, IL, Anderson Bank focuses primarily on financing agriculture projects along with commercial, residential, auto loans, and a full line of personal banking services for its local customers.

A long-standing customer of Diebold Nixdorf, Anderson Bank recently experienced vandalism to its only Opteva drive-up ATM. Knowing the importance of having an ATM operational 24/7, Diebold Nixdorf was able to provide a new DN Series® 490 drive-up ATM and quickly get it installed so that that bank's customers were able to get back to banking. The new DN Series 490, with its modern design and large touchscreen, enhances the consumer experience while giving the bank more value for its investment.

Anderson State Bank

Oneida, IL – Serving
Knox and Henry Counties

“Diebold Nixdorf has been a trusted partner for us for decades. And recently they came through for us in our time of need. We were able to get a new DN Series ATM shipped, installed and operational very soon after an older Opteva was damaged and put out of service. Our customers and all of us are truly grateful for the quick action and quality of service.”

Dick Anderson, President & COO

U.S. Headquarter with Local Manufacturing

An Ohio-based company for more than 160 years, Diebold started in Cincinnati (1859) then moved to Canton, Ohio (1872). In 2016, became Diebold Nixdorf, following an acquisition.

In June 2019, DN opened its manufacturing presence for its Americas-based operations in North Canton, Ohio. This 164,000 sq. ft. facility is currently home to the following teams:

- Services Training
- Global Services Logistics
- R&D, Engineering
- Supply Chain
- Model Shop, Procurement
- Banking Product Management
- Quality and Data Analytics
- Field Operations
- North America Inside Sales
