WE ARE SOFTWARE ENABLED

If our software business was a standalone business, we would rank in the **TOP 100** software companies in the world.

Source: PwC Global 100 Software Leaders by Revenue

DIEBOLD NIXDORF SOFTWARE WAS FIRST IN THE MARKET TO...

...launch a live deployment to allow direct interaction between a phone and an ATM.

...utilize advanced artificial intelligence technology to reduce service costs and improve device uptime

...merge mobile and beacons to re-orchestrate the ATM experience through location-based data

...utilize mobile-based biometric data authentication at ATM

ALWAYS ON SOFTWARE FOR ALWAYS CONNECTED CONSUMERS

Connecting consumer touchpoints with back-end systems that enable financial institutions to create tailored experiences and make data-driven decisions.
