SECONDLINE MAINTENANCE SILVER

Diebold Nixdorf technicians will perform the following Second Line Services during primary hours of coverage as listed on the Equipment Schedule of the Managed Equipment and Services Agreement.

- a. Aggregate average ATM availability will meet or exceed 98% during primary hours of coverage. Availability excludes periods of unavailability resulting from causes not covered by the provisions of this Agreement, events intended to render the equipment unavailable and other reasons beyond the reasonable control of Diebold Nixdorf.
- b. Diebold Nixdorf will use commercially reasonable efforts to maintain a monthly aggregate average response time for Second Line Maintenance within three (3) hours of Diebold Nixdorf's receipt of such a call for such service by telephone to Diebold Nixdorf's call center or by means of another mutually agreed upon call initiation mechanism. Diebold Nixdorf's definition of response time is the number of hours during primary hours of coverage that elapses between the time the Client contacts Diebold Nixdorf and requests service and the time that the Diebold Nixdorf technician arrives on site.
- c. Diagnose fault and/or error condition.
- d. Install parts as needed (parts used may be new or reconditioned, and will be provided on an exchange basis).
- e. Implement engineering changes, known as Field Change Orders (FCO's) while on site for another service call, (e.g. changes intended to enhance or simplify the performance, reliability or serviceability of Diebold Nixdorf Equipment). Government mandates are NOT included.
- f. Collect, log, and secure captured cards in a mutually acceptable manner.
- g. As a courtesy during regularly scheduled maintenance calls, the technician providing service will:
 - Perform the Diebold Nixdorf quality checklist which includes inspection of high usage components, cleaning of the fascia and minor adjustments.
 - Change any ATM fascia bulbs and customer-supplied light bulbs for the ATM vestibule or kiosk that have burned out. This applies to bulbs in the ATM, kiosk or inside the vestibule within five feet of the ATM. If special equipment such as a ladder or lift is required to replace any bulbs, those must be provided by the customer.
 - Replenish consumable items, supplied by Client (unless "Consumables" is referenced on the Equipment Schedule) - receipt paper, printer paper, printer ribbon cartridges, and, envelopes.
 - Clear simple machine jams (i.e. receipt printer, card, depositor, dispenser, passbook printer) caused by ATM malfunctions.
 - Repair cassettes that have been damaged (normal wear and tear excluded). A billable call will result if the cassette has been damaged beyond repair or needs replacement due to wear and tear. The cost of replacement cassettes is not included.
- h. Provide non-electronic ATM chest combination change at no additional charge for non-electronic ATM locks. Coverage on a shared access electronic lock is not included (Kaba Mas).
- i. Provide non-electronic ATM lock replacement per unit per year change at no additional charge for non-electronic ATM locks. Replacement on a shared access electronic lock is not included (Kaba Mas).
- j. On-Site training per ATM per contract term to educate branch personnel on the basic operation of the equipment.
- k. Provide password administration/support through ValiTech which enables Diebold Nixdorf technicians to gain access to the ATM through a secure USB device and allows the institution to keep their administrative password secret and secure.
- l. Perform functional tests to bring ATM on-line.

COMPREHENSIVE SERVICES

- m. Travel required when a service call is placed but upon arrival the ATM is running properly. ATMs with excessive no problem found calls will be brought to the customer's attention for immediate problem resolution and Diebold Nixdorf may charge for such calls on a Time and Material basis. Excessive is generally defined as an ATM that exceeds an average of two no problem found errors within a 30-60 day period of time.
- n. Labor required repairing a fault caused by an action, or lack thereof, by institution personnel (i.e. poorly loaded currency, improperly loaded paper, light printing due to low ink and consumer card jams). ATMs with excessive personnel error calls will be brought to the Client's attention for immediate problem resolution and Diebold Nixdorf may charge for such calls on a Time and Material basis. Excessive is generally defined as an ATM that exceeds an average of two personnel errors within a 30-60 day period of time.
