

# Advanced Protection for Cash and Valuables

CashGard safes are a superior line of UL-listed burglar-resistant depository and commercial chests. These safes come in a variety of sizes and capabilities for virtually any financial or commercial application. Optional individually lockable storage compartments accommodate bulk cash, cash trays, retail merchandise, medicine, documents, etc.

## UNIQUE BURGLARY-RESISTANT FEATURES

Diebold Nixdorf CashGard money and depository chests are designed with specially formulated high-strength steel to meet UL's 15 minute TL-15 door attack as well as other UL performance tests. CashGard safes achieved outstanding results in performance tests using cut-off saws, electric drills, punches and even sledgehammers.

The CashGard chest is designed to be equipped with a wide variety of alarm components, from a simple door contact switch to a comprehensive facility alarm system located in the safe. These components may be installed at the factory or in the field, providing the flexibility to configure an alarm system that meets your requirements to any time.
