

# Reliable Cash Recycling Technology

Cash management accounts for an average of 48% of ATM network operating costs globally—a cost that could be reduced through adoption of automated cash-recycling technology.

## Philosophy

Our advanced cash-recycling technology is designed to provide flexibility for FIs that need solutions tailored to specific market needs and customer environments. These advanced systems significantly reduce cash-management costs and challenges, keep ATM networks supplied with the optimal level of cash, and automatically count, fitness check and detect counterfeiting while recirculating deposited notes to save FIs both time and money. With the CS 4560's added coin-dispensing functionality and passbook printing, supplementing cash-recycling technology, the CS 4560 is designed not only for efficiency but to enhance the consumer experience as well.

## Impressive Innovation

The CS 4560 is an outstanding performer, offering reliable banknote recognition and handling, as well as up to seven recycling denominations with passbook printer, single-check deposit and coin dispenser options. Tried and proven worldwide, the banknote recognition technology with improved sensors and innovative cassette technology are the basis for a unique and flexible system concept that can be tailored to meet customers' individual needs. High note capacity and high uptime make the CS 4560 an ideal system for high-volume outdoor applications, and optimal component accessibility and an intuitive interface mean the CS 4560 is also one of the world's most user-friendly outdoor cash-recycling systems.

## Features

### MEDIA TECHNOLOGY

#### RM3 Recycling Module

- Cassettes
  - 3+1 (3 recycling cassettes + 1 acceptance cassettes)
  - 4+1 (4 recycling cassettes + 1 acceptance cassettes)
  - 7+1 (7 recycling cassettes + 1 acceptance cassettes)
- Recycles up to 7 denominations
- Scalable cassette concept (small 200 mm, Large 300 mm)
- Deposit/withdrawal of up to 300 notes in bundles
- Foreign object detection
- Transport speed: max 10 banknotes per second for deposits/dispenses

#### Cash Cassettes

- Up to 8 cassettes
- CCMS ready with E2E cassettes
- Multipurpose cassette with up to 3 compartments
- Separate cassette for counterfeit notes
- Fill-level indicator
- Scalable cassette concept

#### Banknote recognition

- Banknote validation as per ECB framework
- Processes up to 120 denominations simultaneously

### ENHANCED SECURITY

#### Physical

- Consumer awareness mirrors
- Intelligent operator authentication via CryptA Stick
- Anti-card-trapping functionality
- Anti-manipulation card slot

#### Cyber

- Encrypting PIN Pad
- Optical Security Guard (OSG)
- Secure Channel

## System Options

### SECURITY

- Portrait, cash slot, card reader camera
- Intruder alarm system
- ASKIM
- Multiple sensor secured cassette
- Ink Staining
- PIN Pad Shield
- Security safe
  - Various CEN safes

### DISPLAYS

- 15" XGA color consumer display screen
- Vandal-Resistive Screen with function keys or touchscreen
- High bright/semi bright
- Privacy filter
- 10.4" rear service operator panel

### PROCESSOR

- Celeron, i3, i5

### ACCESSIBILITY

- Headphone jack

### CONSUMER EXPERIENCE

- Branding panel
- Alphanumeric keyboard

### POWER ARCHITECTURE

- Uninterruptable Power Supply (UPS)

### ID DEVICES

- EMV-ready card reader, Motorized or DIP
- Contactless card reader
- Barcode scanner 1D/2D

### PRINTERS

- 80 mm enhanced graphical receipt printer with dual paper roll
- Passbook
- Journal / statement printer

### DISPENSER/DEPOSITORY

- Coin dispenser (8-fold count)
- Check deposit
- A6 Single Check scanner

## Dimensions

Height: 1669 mm (65.71 inches)  
Width: 790 mm (31.10 inches)  
Depth: 848 mm (33.39 inches)
